

## **CSTOP®** **Contractor Safety Orientation Program**

Developed by construction safety professionals to provide superior safety training, **CSTOP®** is an industrial and heavy construction safety training and orientation program.

**CSTOP®** was designed to provide contractor employees with a better than basic understanding of hazards and safety procedures associated with work in highly hazardous work areas, and to address the need for uniform and consistent safety training.

**CSTOP®** is an instructor-led course. The initial class is an 8-hour training session and annual recertification is required by attendance at a 4- hour refresher training session.

Training focuses on construction/industrial safety issues such as:

- Construction/Industrial Accident Prevention
- Personal Protective Equipment
- Hand & Power Tool Safety
- Controlling Hazardous Energy
- Line Breaking
- Mobile Equipment Operations
- Crane and Rigging Safety
- Fall Protection
- Trenching & Excavation Safety
- Confined Space Entry
- Hazard Communication
- Emergency Response
- Process Safety Management
- Work Permit Awareness
- Standby/Fire Watch
- Safety - Who's Responsible

**CSTOP®** has enjoyed long standing relationships with facilities which include:

- Petroleum Refineries
- Pulp/Paper Mills
- PSM Facilities and Manufacturers
- Large Heavy Construction/Infrastructure and Technology Companies.

Each person successfully completing the training is issued a photo certification card from CSTOP Headquarters, and is registered in the **CSTOP®** central database.

Any individual's certification may be verified using either the Certification Card or the database at the **CSTOP®** office in Kirkland WA. Their phone number is 425-822-8300.

The Certification Card is valid for one year from the first of the month following the date of training. Annual 4 Hour re-certification is required.

Montana Safety Services Council offers both 8-Hour and 4-Hour Refresher Certification classes for **CSTOP®**.

Call our office to find out how your employees can become **CSTOP®** certified.

**406.248.4893**

**Online Training is available at our office:** Monday – Friday, 8:00 a.m. - 5:00 p.m.  
We can accommodate 2 persons at a time in our computer lab.
