

Need a Safety and Training Plan to Comply with ISNetworld®?

Are you a small business or contractor that has been overwhelmed with meeting standards and jumping through hoops required by large energy companies?

Are you being told you have to subscribe to ISNetworld®, in order to work for one of these companies?

We are a Not-For-Profit Safety Council with nearly 20 years experience in writing plans, policies, and procedures; contract and budget administration; and program/project coordination.

We have experience setting up companies in ISNetworld® and writing/revising Safety Management Plans, Quality Control Plans, Employee Handbooks, and Company Policies and Procedures to ensure compliance with OSHA and other regulations and standards.

Let us take the hassle away from you. We are in Eastern Montana and the Bakken Basin and can take the burden off of you, so that you can get back to work!

Email Aaron@mssc.org for a FREE consultation.

ISNetworld® provides an online contractor management database which is designed to meet internal and governmental record keeping and compliance requirements.

ISN collects health and safety, procurement, quality and regulatory information for more than 33,000 contractors and 210 Owner Clients.

The ISNetworld® allows owner clients to monitor the Safety Program of their contractors and suppliers.

**We will navigate
ISNetworld® for you.**

**Safety Programs designed
specifically for your
company**

We upload each program to your ISN account and fill out the Self Review Questions for each Review and Verification Program. Once this step is completed, we submit your entire Safety Program for review.
