

Montana Safety Services Council Training Calendar May—December 2010

Forklift Train the Trainer Course

Forklift Train-the-Trainer Certification Course, three-year certification, provides eight hours of formal classroom training presented with lecture, video and power point presentations, which focuses on OSHA's final rule 29CFR1910.178 for forklift operator training. The site-specific and equipment specific requirements for training in the workplace, tips on how to develop training addressing adult learning styles and generational differences, and all guidelines required by OSHA are emphasized in the Forklift Train-the-Trainer Guide Manual and course support on DVD.
